

CHAIR consortium welcomes Janssen Pharmaceutica N.V. as Partner Organisation

Strasbourg, 08/10/2021

The CHAIR ITN Consortium has officially welcomed Janssen Pharmaceutica N.V. as a partner organisation.

Dr. Soufyan JERHAOUI, who holds a PhD from the University of Strasbourg and serves as a medicinal chemistry scientist at Janssen Pharmaceutica N.V., will officially represent the company within the CHAIR consortium.

The CHAIR consortium warmly welcomes the team of scientists involved – including Dr Alexander JONES, Dr Matthieu JOUFFROY and Maëva MERCIER – who will be providing their insight, knowledge and contribute to our ESRs training.

CHAIR – C-H Activation for Industrial Renewal – is a Marie Skłodowska-Curie Action “Innovative Training Network” (ITN) gathering 16 leading research laboratories across Europe, of which 9 academic and 7 industrial partners. CHAIR’s ambition is to educate and train a new generation of scientists on C-H Activation, while developing new solutions to further improve the attractiveness of C-H activation for industrial purposes.
